

Only with Teach Multimedia can you get a turnkey, Multimedia Lab which includes ...

**TV Studio Layout** – We provide a full TV Studio Layout with student positions and workstations for each function in the “Plan, Shoot, and Edit” process of developing a multimedia production. And . . . each student is kept on task!

**Projects** – We have a full array of projects for student productions through the Multimedia Lab:

- Morning Announcements
- News
- Classroom Orientation
- School Orientation
- Theater
- Video Yearbook
- History of Community
- United Way

**Curriculum** – Our curriculum covers:

- Plan, Shoot, & Edit for all the major editing software
- TV Studio production positions
- Project Productions

**Learn about our online and onsite multimedia teacher training:**

<http://teachmultimedia.com/index.php/services.html>

Teachers' In-services provide multiple training resources, methods, and techniques for the multimedia classroom.

Customized to teach the operation of lab equipment and software as students learn to produce video projects.

TV Studio Packages replicate actual TV stations, allowing students to learn all aspects of production and broadcasting.
